SUMMARY

Full Stack developer with experience building end-to-end web applications using React, Node.js, Express.js, and Supabase. Strong in designing real-world workflows, authentication systems, and database-driven applications with production deployment experience.

EXPERIENCE

Frontend Engineering Intern   2024 – Present
ROI Makers | roi-makers.vercel.app   *Remote*
- Built and deployed production website using Next.js, TypeScript, and Tailwind CSS
- Collaborated with founders to implement business-driven frontend features
- Optimized frontend performance and SEO for production readiness

PROJECTS

Appliquo | *React, Supabase, Tailwind CSS* | appliquo.vercel.app
- Built an end-to-end job application management platform with authentication and protected routes
- Designed PostgreSQL database schema and implemented CRUD workflows for jobs and applications
- Developed responsive dashboards focused on real-world job tracking and usability

Multiple Disease Prediction Platform | *Next.js, Prisma, Tailwind CSS* | betterhack.vercel.app
- Built a web platform to predict multiple diseases based on user-provided health inputs
- Implemented authentication and personalized user dashboards
- Integrated prediction logic and managed structured health-related data

One Stack | *Next.js, TypeScript | In Progress*
- Building a chat-based developer tool to simplify tech stack setup and onboarding
- Converts user requirements into guided, step-by-step setup instructions
- Focused on developer experience and extensible product design

ACHIEVEMENTS & LEADERSHIP

- Winner of **2 national-level hackathons**, including **Better Hack (Pune)** and **Urja Hackathon (Indore)**, for building real-world software solutions
- Led and organized national hackathons such as **Dev Hacks** and **Hackwave**, coordinating end-to-end execution for **50+ teams** and multiple stakeholders
- Held leadership roles in developer communities including **Echelon Dev Society** and **Google Developer Groups (GDG) Indore**, contributing to technical planning and community initiatives
- Collaborated with cross-functional teams to manage event operations, technical workflows, and participant experience for large-scale developer events

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Database: PostgreSQL, Supabase, Prisma
Authentication: Email/Password Auth, Google OAuth
Tools & Deployment: Git, GitHub, Vercel, npm

EDUCATION

Chameli Devi Group of Institutions   Indore, India
Bachelor of Technology in Computer Science and Engineering   *Aug 2022 – May 2026*
